

April 1, 2014

Dear Parents,

As you may be aware, full day learning will be implemented at Fern Ave Public School this September.

Since neither junior kindergarten nor senior kindergarten are mandatory, we will be offering a couple of options to best accommodate every child's needs before they finally go on to grade one.

Firstly, for those children attending *both* morning and afternoon kindergarten, we will be taking them to and from school and offering a warm lunch. The cost for this program will be \$40 a day.

Secondly, for those children attending *either* morning or afternoon kindergarten, we will be taking them to and from school and offering a warm lunch. The cost for this program will be \$48 a day.

Garden Ave Public School began full-day learning last year. Our experience has been that some kids (especially the younger ones) only attend kindergarten for the morning. They then come for lunch, a nap and stay with us for the rest of the day. We anticipate a similar situation for a number of our kids attending kindergarten at Fern.

We are pleased to advise that we will be maintaining our current teacher-to-child ratio in our classrooms. This allows us to continue providing quality care and foster positive learning, play and development.

If you have any questions, please feel free to speak to me.

Yours very truly,

Branka Rados
